More details needed on description overlay. Text Overlay below clicking:
Title and Show
Title and Show and Content Type / Tags?

Virtually all site content can be presented as a text-thumbnail that can go here, including: Recentlied content, episodes, characters, quotes.

Clicking top show image outside of "essential" question takes user to Show - Episode - Reaction page.

Homepage - Show Selected

When a show is selected, homepage only displays content related to that show. Top bar becomes most recent episode, scrollable left or right to other episodes.

Clicking "Yes" or "No" to "Is this episode essential?" sends user to Reaction.
Pop-up text "Bit" asking "What would I need to know if I missed this episode?" with option to "Add" or "Cancel" appears on clicking "Bit".
After users has rated the episode, "Yes" and "No" icons (or "4% Yes" "6% No")

Leading up to new episodes, teaser image and countdown appear first in top featured box. User can click to share across social media.

Show - Episode Guide - Seasons

If user has been to an Episode page recently, in the past 24 hours, the most recent Episode is shown. Otherwise, "resume" bar is not displayed. Episodes before "resume" bar episode are marked as "watched" in the grid.
If user has not seen episode before, show most recent episode as thumbnail.

Clicking a season heading drops down all episodes in that season and Essential Rating for each episode.
Clicking season heading again collapses it.

Show - Episode Guide - Seasons

Clicking an episode on the graph or from the drop down goes to that episode.

Show - Episode Guide - Characters

Clicking Character brings up character summary, and tagged fandom include:
- Top Quotes
- Clicking image similar to "Episode" page
- TBD

Show - Episode - Reaction

Essential "Yes" and "No" same functionality as Homepage - Show Selected.

Characters ordered by appearance in the episode via dectron to spoil as said scenary lack. Above can scroll from the right.

Character bios drop down when character image is clicked.

Clicking on a reaction pops up a text box TBD to enter response.

Clicking Plus Circle or "Add Reaction" pops up text box to write reaction text share to social media options.

REVISED CREATE POST

Upon Posting:
View Post - Links to the live Post.
Share to Twitter, Facebook option

Create Post - Choose Template REVISED

Drafts is only selectable in the User has previously saved drafts(s) of Posts.

Choose / Add Image

Choose or Add Image allows User to:
- Upload a new image from their device
- Select the image of an associated Show, Episode, or Character
- If applicable, to select an image previously uploaded to this post via Image Library
- Thumbnails from embedded videos may be selectable here.

Create Post - Text

Text toolbar in Content box will need to be used for smartphone screen size compatibility: toolbar sees here is just an example.

As the User writes Content - Show, Episode, Character, Reaction - Tags are cafy tagged, similarly to how characters are tagged in Reaction. Tags are identified Tagged Episodes and Tagged Characters. Tagged Episodes are "Specific Episode" and "Specific Character" Tags. Tagged Episodes can be a bit less easy manually entering than Episodes and Characters.

Insert Image button in Text Toolbar presents "Choose / Add Image" screen. Image Library is displayed first, with the ratios from suggested images. Tagged ed images are the default images for the Tagged Associated Show, Episodes, and Characters.

Does this relate to a specific episode/character?
Tagged Episodes/Characters from Post's associated Show(s) are selectable.

Choose Cover Image
These boxes displayed by default. first image in the Image Library displayed. button. It is followed by 2 suggested images, the first of which is always tagged Show Image.
If an Episode and Character are tagged in the Post, Episode's thumbnail is suggested.
If a Character but no Episode is tagged, the Show's thumbnail is default.
If no Episode or Character are tagged, the Show's thumbnail is default.

User may tap "Upload & More Options" button to upload a new image. Uploaded image is selected this way. It becomes visible and selected in the Choose Cover Image has now in the "Upload & More Options" button.
